# Advertisement for the post of Junior Research Fellow (JRF) and One Master roll worker

**Project Title:** Nanotechnological intervention on jute-geotextile to adapt long term sustainability and enhanced durability for its cost-effective and wide application in flexible pavement systems

Funding Agency: National Jute Board, Government of India.

Project Registration No.: NITD/SRCC/SP/CE/2021/16

**Duration:** 3 years **Project Objectives:** 

- i. Chemically modification of conventional jute geotextile (JGT) materials to enhance its durability (with a target of additional 3 years w.r.t present scenario with target efficacy of 80%) and tensile strength properties.
- ii. Performance study of the treated JGT as reinforcing layer over the soil sub-grade in flexible pavement system under repeated wheel load
- iii. Development of protocols on the application of JGT as geo-material in pavement construction based on experimental and numerical modelling
- iv. Economic analysis for pavement construction and lifelong study on overlying the JGT treated soil subgrade

### Qualification for JRF:
